# 1. Hong Kong Education Environment and System

Post Date : 2018-9-6

With the combination of Chinese and Western culture, there is no language barriers and children can grow in the most genuine British education system. Under the trend of globalisation, parents can create an international platform for their children and enhance their international perspective easily.

Hong Kong education is mainly divided into preschool education, 12 years of free education and universities.

The purpose of preschool education is to cultivate children development in all aspects and lay the foundation for future study. In an open and diverse educational environment, children with different talents can realise their potential, express their opinion bravely and love challenges.

12 years of free education is 6 years in primary school, 3 years in secondary school, and 3 years on high school, which is no tuition fees are payable. At the university, there are many world-class institutions in Hong Kong, the design and quality of curriculum is in international standards,
